COUNSEL

Dear FEC,

Thank you for your help earlier with the in kind donation the Rosenberg Richmond Chamber of Commerce was going to be making, also. Sadly, however, instead of having the other two challengers invited to theirs, they decided just to cancel the debates.

2008 OCT 24 A 11: 13

We are however are invited to participate in three other debates before the one Mr Mitchell and his company is managing and controlling. One will be put on U-tube, another on prime time PBS and the third is going to be covered by the media itself. These events should boost us in the polls.

Corporations are about to make illegal political in kind donations. Bob Mitchell, the president of Bay Area in his position is controlling access to a Political Debate and is individually responsible also for making these large in kind donations at the expense of two other challengers he refuses to invite. Mr Mitchell even sent me some Lawyer pages justifying his law breaking. The debate I have been told is going also to be aired on the local FOX station adding to the value of the in-kind donation tremendously along with reporters from other news papers and TV News people. In essence, all those companies involved will be adding individually to the in kind donations I spoke with one of the five sponsors directly and they said the more the merrier, and pointed the finger back at Bob Mitchell and his company. I have not received all the sponsors, but I will list the ones I do have on an attachment to this complaint.

I am not sure and not privy to whether the Bay Area Private Country Club is donating their building to hold the debate. If that is the case then they would also be making an illegal in kind campaign contribution. I will call them in the morning and ask if they are donating or are they renting out the space to Mitchell and his group.

The actions of Mr Mitchell from the beginning have been deplorable. He told me not to embarrass myself by making this formal complaint. I was and am embarrassed because he did not think enough of two other challengers to invite them to his debate. He has poisoned the water for both of us that have been left out and even if they have the debate now with us included, the other two that he invited them only to begin with an unfair advantage, plus the hard feelings he helped create, by forcing us to file a complaint to be included.

Please note that the Democratic and Republican candidates will also have to show the in kind donations on their campaign finance reports. We estimate the amount of the in kind donation should be around \$50,000.00 each, or a total of \$100,000. A normal management fee would be about 10 percent or higher so Mitchell would be giving \$5000 in kind donation to each Candidate that he invited. This is well over the approved/legal amount that he can donate.

May GOD bless all of us, US too!!!

John Wieder for Congress TXD-22

PS, We are enclosing some stats that are being used in an algorithm to determine what percentage we are polling!!! Web site visits have increased to nearly 2000 visits a week. The ten radio spots today showed a late flurry of hits this afternoon. WE are waiting on the results of the independent polling group. They have been working on it for two weeks
